

August 9, 2017

Hello everyone,

Finally got my computer back after a hard drive crash in which I lost everything !!!! What an experience!!

The dog days of August are here and with them come the tiniest of inklings that we soon have to be doing a lot of planning, but for now we can ignore them and concentrate on enjoying the depth of summer.

The down town looks fabulous this year. The colors are vibrant and all the planters are overflowing. The town office looks different without the tree, and I can't decide if I miss it. Also improved is the space outside the theater. Kudos to Tom Yennerell, SOM, and all those who helped get it completed in such a timely fashion.

The tour of Gardens in Chester was very successful and impressive. Gardeners are so creative and positively dedicated to growing wonderful green things.

Communications have been received from our president Caroline Frey regarding awards and potential financial awards for certain projects.

Other than that there is not much news. Many folks are enjoying time away during the summer and things are quiet. Also attached is a poem sent by Lynn Likus. Enjoy!!!

Our August pool part was not well attended. (five people!!) Maybe we need to rethink our August activity. It seems like many people are vacationing. A topic for a later meeting. Those who were there had a great lunch and sparkling conversation !!!

So long for now... September is not far away. Please keep the fall meeting on your radar.

Attached is a poem from Lynn Likus

Cheers , Carolyn
