DOWNTOWN PLANTERS AND OTHER SITES

It has been a very challenging summer and I am so grateful for everyone's cooperation in keeping the flowers watered.

Town Hall Renovation – Removal of Wall – Lovely display of our flowers

A group of six people, three women, one young woman, one young man, and two older women, are standing in front of a brick building with large windows. They are flanked by two large, round planters filled with green foliage and colorful flowers (red, orange, and purple). The group is smiling and posing for a photo. The young man is standing in the center, wearing a dark blue patterned shirt and white shorts. The young woman is standing to his left, wearing a light blue patterned shirt and dark jeans. The three women are standing on the left side of the group, and the two older women are on the right. The brick building has a large window with a green frame. The planters are made of light-colored stone or concrete. The flowers are a mix of red, orange, and purple. The green foliage is dense and leafy. The overall scene is bright and cheerful.

COMING UP*****

Time: 9:30 AM. Meet at Ollie's to carpool

**I hope everyone is staying cool and well hydrated. It's been a very oppressive summer. We are so lucky to not have been struck by the recent flooding happening in the northern part of our State. Our heart goes out to those towns, especially those who are located in the FGCV Federation.**
